

How is the literacy and numeracy process going to help me?

- **This process helps me, the student and the course** - When students know what literacy and numeracy **skills they need for the trade/service/vocation** and your programme they will be more motivated to develop these skills.
- **It will make my life easier** - It will help you understand your students' literacy and numeracy skills.
- **It identifies gaps** - When you and your students know what steps they're at you can help them improve gaps in learning and their understanding of their course materials. They will have more idea about what literacy and numeracy skills they already have and what skills they need to work on.
